

# Library Welcome

# What will we do today?

- Tour the library 
- Welcome to the library and to your librarian
- Key things to know about the library
- Mapping your library workshop

# Subject Librarian

I can help with...

- Finding resources to support your practice
- Referencing and critical citation
- Researching and information literacy

You can find me...

- In and around the library *[say hello]*
- In workshops and lectures
- Online via email
- In 1-1 tutorials

# *Mapping the library*

# Action: Write down

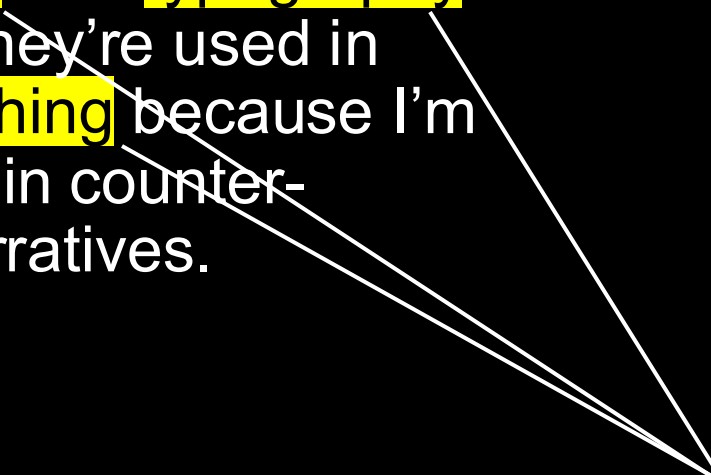

Your name

Example: Rosaline

Pick one Graphic Design topic which you are excited to explore this year and why?

I want to find out about letterpress and typography and how they're used in self-publishing because I'm interested in counter-culture narratives.

I want to find out about letterpress and typography and how they're used in self-publishing because I'm interested in counter-culture narratives.

# Action: Searching and mapping the library

- Do a library catalogue search based on your own interests and select a book on that topic in Chelsea Library.
- Find that book in the library; have a look around that section and see if there is anything interesting around.
- Go to a completely random section of the library; what catches your eye?

Bring back what you find to this room! (Maximum 4 items)

You have 10 minutes

# Action: Searching and mapping the library (2)

Using post-it notes/pens, start mapping where you found your books. What sections can you identify?

Think about the connections that might be appearing between books and topics. What are other people on the course interested in? Think about why you picked out the 'random' items – visuals, author, artist?

*One thing you found out today  
which you didn't know before*

*and/or*

*Any questions you still have?*
